

ABDOMINAL MEDICINE:

Applications for Alicam
in the diagnosis of
gastrointestinal
disease in the dog

Dr. David Sewell

Vets South Congress
Exeter, UK

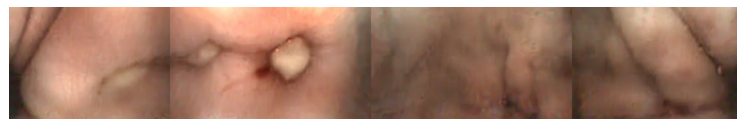

Thursday February 8th, 2018
12:00pm - 12:45pm

This session will focus on a new non-invasive imaging technology requiring no anaesthesia, sedation, restriction of movement or expensive capital equipment. Its role in assessing GI mucosa and detecting GI bleeding and other GI disease will be discussed.

See the whole picture with ALICAM

Gastric polyp

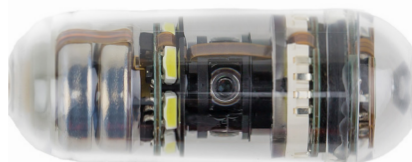

Gastric ulcers

Dilated lacteals

Jejunal mass
