BEGINNER-TO-ADVANCED TRACHEAL STENTING

Join us Wednesday, October 24, 8:00am–12:00pm

Laboratory Chair: *Chick Weisse, VMD, DACVS*

Laboratory Faculty: *Allyson C. Berent, DVM, DACVIM, Jeffrey Solomon, MD, MBA*

This laboratory is designed to teach beginners, as well as those with more experience, the indications and technical aspects of performing tracheal stenting:

- Case selection criteria
- Medical and interventional management
- Trouble-shooting
- Difficult and complex case treatment
- Handling and avoiding complications
- Follow-up instructions for clients and referring vets
