VET STENT - Ureter™

Patent Pending

New 2+ Fr Size

Thermo Star® Adaptive Polymer

Clinical Support For Every Case
VET STENT - Ureter™

Features and Benefits

✓ World’s Smallest Ureteral Stent
  • Available in 2+ Fr feline through 6 Fr canine versions

✓ Thermo Star® Adaptive Polymer
  • Variable stiffness based on ambient temperature so that a single version can be stiff when placed, but soften at body temperature to maximize comfort

✓ HydroLux™ Coating
  • Proprietary coating placed on the stent that reduces friction and facilitates stent placement

✓ Supported by a Full Line of Accessories to Manage a Case from Start to Finish
  • Weasel Wire®
  • 2.5 Fr and 5 Fr nephrostomy tubes
  • 2.5 Fr urethral catheter kits
  • Needles
  • Access kits
  • Sheaths

✓ Infiniti Medical Consulting Service
  • Complimentary assistance with case evaluation, stent selection, case management and technical support
