

**CAPSULE ENDOSCOPY  
IN THE VETERINARY  
PRACTICE:**  
Past, Present and Future

**Dr. Simon Tappin**

BSAVACongress  
Birmingham, UK

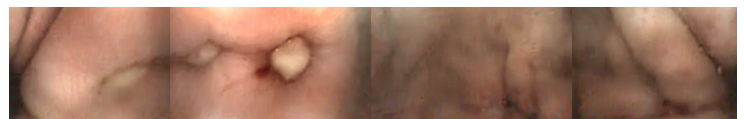

Saturday April 7th, 2018  
13:30 - 15:00

This session will focus on a new non-invasive imaging technology requiring no anaesthesia, sedation, restriction of movement or expensive capital equipment. Its role in assessing GI mucosa, GI bleeding and other GI diseases that can be diagnosed using capsule endoscopy will be discussed.
